Work Plan Component 2: Consultation with EPA on Black River Mine Discharge Permit

Environmental Outcome:

- Mine's wastewater discharge regulated to reduce adverse impacts on subsistence fisheries by 95%.
- Subsistence fisheries remain healthy and abundant as noted by key parameters of indicator species.

Intermediate Outcome (this grant period):

- Raven Tribe develops understanding of Clean Water Act permitting regulations and processes.
- Mine operator understands and appreciates tribal interest in water quality and healthy, abundant fisheries.

Estimated Cost:

Estimated Work Years:

COMMITMENTS		STATUS	DATE COMPLETED	OUTPUTS AND DELIVERABLES	COMMENTS NOTE: Explanatory comments are required for any task listed as "Not complete."
1.1	Environmental staff meet with discharger and EPA technical staff to understand nature of operation, waste water management and character of discharge	Technical		Meeting notes
